Please provide a description of the methods used to solicit community input on community needs:

Amoskeag Health has an active role in the Greater Manchester Regional Public Health Network. For the 2022 Greater Manchester Community Health Needs Assessment, Amoskeag Health worked in collaboration with the City of Manchester Health Department to assist in distribution of questionnaires to our patients to provide feedback on the needs demonstrated in our service area. Amoskeag Health also uses quarterly patient satisfaction surveys to gather patient feedback on a variety of questions, and sends a post-visit survey to patients where they can provide open ended feedback. This has greatly assisted our ability to understand the needs our patients are experiencing. We also regularly complete individual patient assessments in the areas of SDOH (social determinants of health) which helps us better understand challenge areas patients are facing.
